

We welcome 2021 with tremendous hope for the future and gratitude for all we accomplished during a very challenging year. Your help allowed us to support more than 100 families and caregivers in 2020.

We also managed to launch a more dynamic and informative website. The updated site includes videos, resources and compelling stories that illustrate the many ways B Brave is changing the lives of children and families facing rare, incurable neurological disorders. Our site links to our [Instagram](#) and [Facebook](#) pages. Please follow us to read and share stories of bravery as we work to increase awareness of our vital mission.

Pandemic Alters Annual Event

We thank everyone who purchased tickets for our annual event, which was postponed for COVID-related safety reasons. We appreciate the committed support and generosity of our sponsors and patrons. Many of you either donated your ticket to our 2020 annual campaign or chose to save your ticket for when we can all be safely together. We look forward to seeing you as soon as we are able to gather!

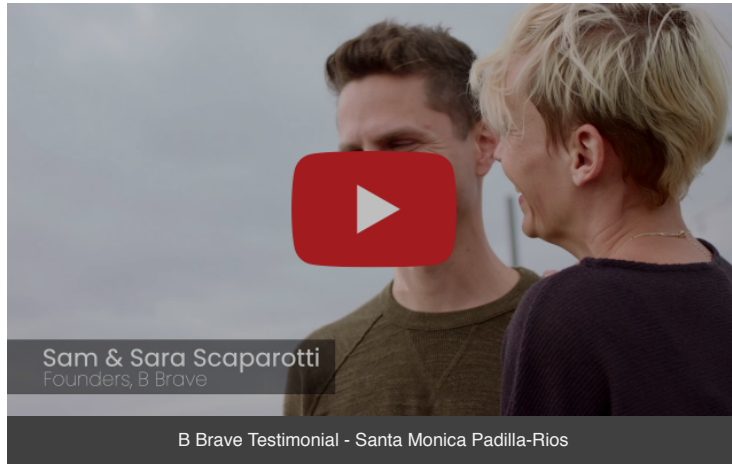

Cleveland Crunch Update

We're thrilled to be part of the relaunch of the Cleveland Crunch professional soccer club. A B Brave board member helped us forge a partnership with this new and exciting organization! It's a win-win, as both of our organizations look to make a positive impact in the local community. The partnership helps to spread the word about the importance of our mission. We'll share more on ways to get involved in this exciting partnership soon. In the meantime, we encourage you to take advantage of a chance to participate in the [Cleveland Crunch Winter 2021 Youth Soccer Camp Jan. 22-24](#), which is open to players aged 13-17.

Mission Moment

B Brave is proud to help families during their darkest hours. We helped Evelin and her family since August of 2019, supporting them as Evelin battled FoxG1 Syndrome, providing aid through our Children & Families Financial Assistance fund throughout her courageous fight and helping cover funeral expenses in June.

Advisory Board

We're honored whenever talented and compassionate professionals endorse our work. Our newly created Advisory Board provides guidance on medical topics, verbiage for our promotional materials and how to support families as they manage significant healthcare questions and challenges. We're delighted that these busy professionals are willing to lend their name and expertise to B Brave Foundation! Thank you to these incredibly generous and kind people:

Neil Friedman, MD

Blyth Lord, Founder Courageous Parents Network

Ashley Zakhikani, MA, LPCC

Your support – whether through physical or financial donations, volunteering or spreading awareness – makes it possible for us to support families in need. We look forward to accomplishing even more in 2021 with you by our side. Next month we'll launch Project Rare – our collection of short films, and we have much more in store for B Brave this year. We look forward to an outstanding year together!
